

**Anatomy Dissection School    22 – 26 June 2020**  
**Accredited by the Wits CPD Office with 30 CPD Points**

Did you learn your human anatomy by means of dissection of a human cadaver?

The School of Anatomical Sciences, University of the Witwatersrand, Johannesburg is hosting a Dissection School in order to provide training in human anatomy undertaken on human cadavers. This venture has been endorsed by the Anatomical Society of Southern Africa (ASSA). The Wits School of Anatomical Sciences is set in Johannesburg which is the economic hub of South Africa. The Wits Faculty of Health Sciences is recognized internationally for its academic programs and its research.

**General information**

Anatomy departments worldwide struggle to obtain human cadavers to teach anatomy, and therefore at many universities, anatomy is taught entirely through digital means or by prosected specimens only. We at the School of Anatomical Sciences, University of the Witwatersrand, South Africa, are in the fortunate position of being able to provide full body dissection to our medical and allied health sciences students. We would therefore like to extend this opportunity to national and international medical and allied health sciences students (e.g., physiotherapists, occupational therapists, nurses, etc), clinicians and specialists who have not had the opportunity to dissect a human body. We are therefore offering the following options:

1. Dissection of a human body for health sciences undergraduate or postgraduate students who have not had dissection experience,
2. Intensive dissection of a specific region of interest (e.g., brain, shoulder, thorax, etc). This would be for specialists only.

Participants will have to share a cadaver, but it is proposed that there will be no more than six (6) participants working on one cadaver. Dissections will be carried out under the guidance of expert Anatomists.

**Practical arrangements**                      **Date: 22 – 26 June 2020 (5 days)**

**Venue:** School of Anatomical Sciences, University of the Witwatersrand, Johannesburg, South Africa

**Cost** per participant (max 25 individuals): Participants from Outside South Africa: **US\$600.00** and South Africa: **R7,000.00**. This cost excludes transport and accommodation\*

\*It is expected that participants arrange and fund their own transport and accommodation, although we will be available to advise on hotels which are in close proximity to the Faculty of Health Sciences. While a dissection guide will be provided, participants must bring their own atlases and a white coat. The organizers will require proof of registration as a health sciences student or employee at a health-based institution. Potential applicants to the GEMP programme will also be considered with a special motivation.

**Registration Form for Anatomy Dissection School**  
**Date: 22 – 26 June 2020**  
**Accredited by the Wits CPD Office with 30 CPD Points**

Please fill out the form and return to Mrs L. Marole: [Lizzie.Marole@wits.ac.za](mailto:Lizzie.Marole@wits.ac.za)

Where necessary, mark an 'X' for the answer that applies to you.

**Title:** \_\_\_\_\_

**First Name & Surname:** \_\_\_\_\_

**E-mail address:** \_\_\_\_\_

**Telephone No:** \_\_\_\_\_

**Address:** \_\_\_\_\_

**Are you a student?**

**Yes**

**No**

**If a student:**

• **For which course are you registered?** \_\_\_\_\_

• **At which university?** \_\_\_\_\_

• **How would you describe your current level of knowledge of Anatomy?**

None

Undergraduate

Postgraduate

*(Please provide a Letter from a Lecturer at your institution, verifying that you are a registered student.)*

**If you are not a student:**

• **In which capacity are you currently employed?** \_\_\_\_\_

• **At which institution?** \_\_\_\_\_

• **What is your level of experience with dissection?**

None

Undergraduate

Postgraduate

**Are you interested in general dissection, or do you have a particular region of interest?  
(Examples: Brain, Thorax, Abdomen, Pelvis & Perineum, Lumbar, or Others (Specify))**
